BVS-ABR

What is in BVS-ABR for you?

Communication working group
tperko@sckcen.be

19 October 2018

Gent

Young Scientist Event

Benefits of your membership

- Professional status
- The society journal/annals and newsletter free of charge
- Ready access to fellow workers in the field of radiological protection
- Help, information and guidance on career development
- Information about job vacancies and career opportunities (strong network)
- Opportunity for direct involvement in the Society's scientific meetings
- A direct link with the International Radiation Protection Association IRPA

BVS-ABR your gateway

- Opportunity for your scientific output - publication in BVS-ABR annals
- Dissemination of your research results or your success in a form of a news in the newsletter
- Membership improves your CV
- You can develop your editing skills and propose a special issue
- Get to know and extend your network: Multi- and trans-disciplinarity is a request for H2020 projects, MSC scholarships, FWO proposals…
- Active and influential opinion-maker and decision-maker in WG

BVS-ABR your gateway

- Board members and senior members from radiation protection institutions, industry, universities, authorities are open to meet you in person to discuss your career development and ideas and opportunities.
- Network (a.g. Young generation) shares job vacancies and career opportunities.
- Propose Society's scientific meeting or workshop: e.g. would you like that we organise a workshop on “How to reach out and explain your research to lay people?”
- Meet International Radiation Protection Association IRPA, young generation: reduced registration, prises for best poster, research, presentation…

Langetermijn**doelstellingen**:

- Zichtbaar zijn op het nationale en internationale niveau,
- Erkend worden als stakeholder in vraagstukken rondom stralingsbescherming,
- Het BVS-netwerk uitbreiden,
- Komen tot een geïnformeerd en betrokken lidmaatschap
- Transparantie

Objectifs à **long terme:**

- Être visible au niveau national et international,
- Être reconnu en tant que stakeholder dans les questions relatives à la radioprotection,
- Développer le réseau de l'ABR,
- Arriver à une adhésion informée et impliquée,
- Transparence
