**International Symposium on the occasion of the 50th anniversary of the Belgian
Association for Radiological Protection BVS-ABR**

Challenges for Radiological Protection for the next 50 Years

SOMMAIRE

INHOUD

Academic Session:

Rétrospective de la radioprotection en Belgique dans le contexte international et national	p. 81
Een terugblik op de stralingsbescherming in België in een internationale en nationale context	p.103
A look back at the radiation protection in Belgium in an international and national context	p. 125
Paul HUBLET (BVS-ABR)	

From Session 1: Looking back and anticipating the future: setting the scene

Evolution of legislation in the near future	p. 127
Augustin JANSSENS (EC-DG TREN))	

**From Session 2: Societal aspects of Radiation Protection, including perception of the
radiation risk**

Perceived risk shapes human behavior but can be influenced	p. 139
Hans VANMARCKE (SCK•CEN)	

Risk perception of ionizing radiation among hospital personnel	p. 145
Charlotte STIEVENART (ULB-Ecole Santé Publique), Catrinel TURCANU(SCK•CEN)	

**From Session 3: Lessons learned from accidents - importance of maintaining
competence**

Post Fukushima improvement of the emergency plan for the Tihange and Doel nuclear power plants in Belgium - focus on the radiological aspect	p.159
Benoit LANCE (Electrabel, GdF-Suez)	

A network to promote the interest of younger generations in radiation protection in radiological and nuclear engineering	p.167
José RODENAS (Universidad Politécnica de Valencia)	.

Poster session

About actual challenge in nuclear education - Towards sustainability	
Andrejs DREIMANIS (State Environmental Service, Riga, Latvia)	p.177

SARA, safe application of radiation and radionuclides, an Erasmus intensive programme in radiation safety	p. 189
François TONDEUR, Isabelle GERARDY, Friedrich HOYLER, Lenka THINOVA, Tomas CECHAK, Herwig JANSSENS, Isabel LOPES
